

Manually Installing FontExplorer X Pro Plug-ins for Windows Adobe CC 2014 Applications

From time to time the Windows FontExplorer X Pro plug-ins may be updated independently from a FontExplorer X Pro client software update. This may be to provide new features, more stability or support for new Adobe or QuarkXPress applications. These instructions cover installation of plug-ins for the new Adobe CC 2014 applications.

Before updating any existing plug-ins it is always a good idea to make a backup of the plug-ins currently installed.

Before proceeding:

- **Download the package "FontExplorer X Pro Windows Plugins for Adobe CC 2014.zip" from www.FontExplorerX.com/download > PLUGINS**
- **For each of your Adobe applications determine whether you need to install a 32 bit or 64 bit version of the plug-in**
- **Quit out of any Adobe CC 2014 application where you wish to install plug-ins**
- **Assure you have Administration privileges on your Windows workstation**

Adobe Illustrator CC 2014 (32 bit version)

1. Unzip "FontExplorer X Pro Windows Plugins for Adobe CC 2014.zip"
2. Expand the downloaded folder "FontExplorer X Pro Windows Plugins for Adobe CC 2014 (32 Bit)" and copy the folder "FontExplorer X for Illustrator CC 2014"
3. Go to the path C:\Program Files (x86)\Adobe\Adobe Illustrator CC 2014\Plugins and place the copied plugin folder here

Adobe InCopy CC 2014 (32 bit version)

1. Unzip "FontExplorer X Pro Windows PlugIns for Adobe CC 2014.zip"
2. Expand the downloaded folder "FontExplorer X Pro Windows Plugins for Adobe CC 2014 (32 Bit)" and copy the folder "FontExplorer X for InCopy CC 2014"
3. Go to the path C:\Program Files (x86)\Adobe\Adobe InCopy CC 2014\Plug-ins and place the copied plugin folder here

Adobe InDesign CC 2014 (32 bit version)

1. Unzip "FontExplorer X Pro Windows PlugIns for Adobe CC 2014.zip"
2. Expand the downloaded folder "FontExplorer X Pro Windows Plugins for Adobe CC 2014 (32 Bit)" and copy the folder "FontExplorer X for InDesign CC 2014"
